XGBoost without resampling: the protocol moves the numbers by a few points, not by tens
Macro F1
Macro AUC-PR
Stratified 5-fold (used in the paper)
Grouped 5-fold (no shared feature vector)
De-duplicated pool, 5-fold
Single random 80/20
Single time-ordered 80/20
Train 22-23 Jan, test 18 Feb
